

## 2014 Legislative Platform

We the undersigned represent EMID Families, a group of public school parents, guardians, students, alumni, educators, and advocates of integration. We work towards educational equity through intentional integration by supporting the continued mission of the former EMID schools: Harambee Environmental Science/ Community Cultures School in Roseville, and Crosswinds Arts and Science School in Woodbury.

1. We support the conveyance of Harambee Environmental Science/ Community Cultures School to ISD 623 Roseville Public Schools for the continued purpose of serving as a multi-district integration school effective July 1, 2014.
2. We support the conveyance of Crosswinds Arts and Science Magnet School to Perpich Center for Arts Education for the continued purpose of serving as a multi-district integration school effective July 1, 2014.
3. We request the state continue to provide transportation funding for students to the integration schools.
